

CHAINMAILLE KEYCHAIN KIT

Supplies:

1. Keychain Kit;
2. Two (2) Needle-nose Pliers; and
3. A Good Attitude.

Procedure Steps:

1. Locate starter pieces in the kit.

Key Ring

First Roles

2. Open half of the other rings.

3. Fit one (1) open ring through two (2) partially closed rings and assemble like this:

4. Link open ring through two (2) of the closed rings in starter piece and close. Note how the middle ring in the starter piece is oriented and match that orientation.

5. Repeat Step 4 for 30 to 50 more times, depending on how long you want the piece to end up. You will have a herringbone pattern with two rows of 30 to 50 rings connected by a row of 29 to 49 rings.

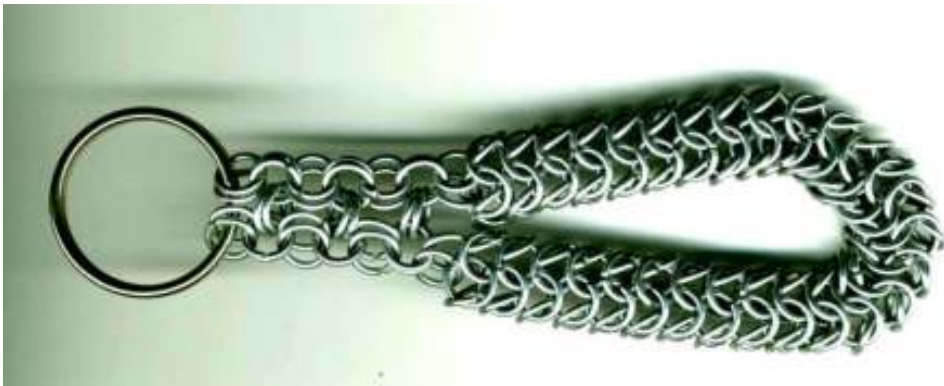

6. Now take one (1) open ring and thread through 2 of the side rings. Repeat this until you have completed the whole row.

7. xxxxx
